

# Understanding Your Benefits ID Card

Your benefits ID card may look different from other cards you've had, but it has all the information you'll need about your plan.

**Your card includes the contact information for EBMS, the main point of contact for your health plan. They handle it all!**

- ✓ Answer all your questions - just call the phone number on the card
- ✓ Direct you to the right medical provider
- ✓ Send you an Explanation of Benefits (EOB) that detail your plan coverage for each claim

**When you go to a healthcare provider for care, there are a few "rules of the road."**

- At check-in or registration, provide your benefits ID Card.
- If they have questions, tell them to call the provider phone number on the card.
- If they indicate that they don't accept your insurance, encourage them to call the provider phone number to verify your eligibility for benefits.
- At any time, if you are asked to pay up front, immediately call EBMS to speak to someone who will work through the issue right away.

**Have questions about your coverage? Call EBMS at the number on your benefits ID card.**

EBMS and ELAP Services work closely together on your behalf.
